---

Professional profile:

Full Stack Web Developer with a solid foundation in JavaScript and React. Passionate about creating innovative and eficient solutions to technological challenges. Demonstrated ability to work as a team and quickly adapt to new technologies.

Work experience:

Teaching Assistant - **SoyHenry** | Remote | December 2023 - Present

- Coordinate a group of students to achieve integration to the study group.
- Guide students in the first steps of the course.
- Assist to solve exercises and promote group collaboration (Pair Programming)
- Propose ideas to improve the Bootcamp processes.

Fullstack Developer - **KaroKids** | Remote | January 2024 – March 2024

I am dedicated to the development of an eCommerce for a renowned children's clothing store in Colombia, working closely with a multidisciplinary team to provide customers with an exceptional shopping experience. From frontend design and development to backend implementation, I am responsible for creating a secure, efficient and highly functional platform, driving the growth and success of the online store in the competitive digital market.

Relevant projects:

Ares-GamesDB (React, Redux, SASS, Node, Express, Sequelize, PostgreSQL)

- I developed a comprehensive note management system that uses JavaScript for creating, editing, and deleting notes.

Personal Portfolio (JavaScript, Astro, TailwindCSS)

- I developed a personal portfolio (SPA) using Astro as a frontend framework and Tailwind for styling.

GreenPortal (React, Redux, SASS, Node, Express, Sequelize, PostgreSQL)

- I developed a Rick and Morty application consuming API for each character's information, a database for managing favorites, as well as user creation and login.

Technical skills:

Frontend:
- HTML5
- CSS3
- JavaScript (ES6+)
- React.js
- Astro

Backend:
- Node.js
- Express.js

Databases:
- Sequelize
- PostgreSQL
- MongoDB

Tools and others:
- Git
- RESTful APIs
- Agile and SCRUM Methodologies

Education and courses:

- Degree in computer science
  (UNSJB, February 2024 - In progress)
- Full Stack Development
  (SoyHenry Bootcamp, August 2023 - March 2024)
- Automation
  (YPF Foundation, January 2024)
- Industrial instrumentation
  (YPF Foundation, January 2024)

Languages:
- Spanish (Native)
- English (C1-Advanced)
